Northern Chill Natural Alkaline Water and World Record Breaker Cole Freeman Are at It Again to Bring the Next Dare Devil Jump to the Capital City 14th Annual Bikefest

Cole continues to bring adrenaline filled entertainment with an exciting jump with a Harley-Davidson across pyramids of bottled water.

RALEIGH, N.C., September 18, 2018 (Newswire.com) -

Northern Chill Natural Alkaline Water is again partnering with Cole Freeman to bring the second adrenaline filled daredevil jump on the tour. Last week Cole nailed an Evel Knievel style jump across a pyramid of 9,360 bottles of Northern Chill Natural Alkaline Water in Brooklyn, NY. A jump that was impressive to see on video but amazing to see live! This week Cole will be completing a death-defying jump with a 2015 Harley-Davidson XG 750 Street across a pyramid of 18,720 bottles of Northern Chill Natural Alkaline Water at the Capital City 14th Annual Bikefest on Saturday, Sept. 22, 2018, at 6:00 p.m. EST. The jump will take place at the Tobacco Road Harley-Davidson dealership located at 1126 S. Saunders St, Raleigh, NC 27603. To learn more about the Bikefest, visit www.captialcitybikefest.com.

Cole Freeman of Saint Louis, Missouri, travels the nation thrilling spectators like a legend from the past. Cole's adrenaline-fueled, fast-paced riding style is taking the sport to a new level. Many of the stunts that Cole dares to attempt have never been tried and most of them, for good reason. In a recent feat, Cole jumped a Harley-Davidson Road Glide Ninety-Nine Feet Ten Inches shattering ramps, bike and the record. Cole is on a mission to keep the industry thriving through extreme entertainment while paying homage to a childhood hero Evel Knievel. Cole also hopes to inspire America's youth to step away from the electronics and get out outside and be active. For more information, follow Cole www.facebook.com/colefreemanofficial and www.instagram.com/colefreeman and www.youtube.com/c/ColeFreeman.

Northern Chill is a Natural Alkaline Water that has such a crisp and refreshing taste to share with family and friends at fun events throughout the year. Northern Chill is bottled at the source in the beautiful north woods of Polar, Wisconsin, from an aquifer left by Ice Age glaciers. Northern Chill water is all natural – nothing is added to it! A natural way to stay more hydrated. Northern Chill will be donating bottles of water to the event to raise money for charities. About Northern Chill Natural Alkaline Water

Northern Chill is a Natural Alkaline Water. It is bottled at the source in the beautiful north woods of Polar, Wisconsin. The Ice Age glaciers that moved through Langlade County thousands of years ago created the aquifer that produces Northern Chill. Northern Chill water is all natural – nothing is added to it! Northern Chill water comes out of the ground with these great levels of minerals, electrolytes, and 7.8pH and is only treated with UV and micron filtering. Northern Chill uses only 100% PET, BPA free bottles with waterproof labels.
